1. A cloud environment has several advantages over a physical environment and these benefits become available to companies once they have migrated to the cloud. One of these benefits is referred to as High Availability. 1 / 1 point

What does High Availability provide?

- ☐ Cloud-based resources can be deployed and configured quickly as your requirements change.
- ☒ Your cloud-based applications can provide continuous user experience with no apparent downtime even when things go wrong.
- ☐ Applications and data can be deployed to regional datacenters around the globe.
